Esthetician Advanced Practice CERTIFICATE

Program Overview
Advanced Practice (AP) esthetics services include specialized training and clinical practice in four AP esthetics categories: chemical exfoliation of the skin, wax/followation of the skin using a machine or device, advanced skin care techniques, and skin needling.

The Esthetician Advanced Practice Certificate is designed to be the next level of training for the esthetician or cosmetologist that wishes to specialize in the aforementioned categories including advanced understanding of skin anatomy and physiology, skin histology, skin care products and ingredients, pre and post treatment regiments, client consultation including skin analysis and skin typing, and risk management. Students learn to perform chemical peels, microdermabrasion, dermaplaning, skin needling, and facials utilizing machines, electrical devises and lymphatic drainage.

This certificate is for the student who has a current/active Minnesota basic esthetician license, Minnesota cosmetology license; or for the student who has completed all theory, practical training and state testing as defined in Rule by the State of Minnesota and the Minnesota Board of Cosmetology and is progressing onto the next level of esthetics licensure.

Career Opportunities
After AP Esthetics students complete all theory, practical training and state testing as defined in Rule by the State of Minnesota and the Minnesota Board of Cosmetology, they are eligible for licensure through the Minnesota Board of Cosmetology.
