Program Overview
The Medical Laboratory Technician program is a combination of classroom, laboratory and applied experiences that will provide students with training needed for employment in Medical Laboratory careers. Following the didactic coursework, which includes hands-on training in campus student laboratories, students are assigned to a clinical affiliate for the clinical experience. This required portion of the curriculum provides realistic experiences and an opportunity for further learning and demonstration of technical and affective skill competency. The Associate of Applied Science Degree prepares graduates to enter employment as a Medical Laboratory Technician. Medical Laboratory Technicians use sophisticated automated equipment and instruments, microscopes and cell counters to perform testing that helps physicians diagnose illness and disease, and treat and monitor patient health and wellness. They collect and prepare specimens; count cells and look for abnormal cells; analyze the chemical content of fluids; look for bacteria, parasites or other microorganisms; and match blood for transfusions. As a critical member of the healthcare team, Medical Laboratory Technicians evaluate data to determine its accuracy and relay the test results to the physician to provide quality services that contribute to patient safety. They then analyze the results and relay them to physicians. Qualifications include an interest and aptitude in science and mathematics, accuracy and attention to detail, strong communication skills, moral and intellectual integrity, self-discipline, an ability to multitask and prioritize workload, and a desire to contribute to patient care. Laboratory workers must have the cognitive and technical skills to perform and master a variety of tasks and the professional/affective skills to work efficiently and interact effectively with patients and other members of the healthcare team.

Career Opportunities
Laboratory tests are of vital importance to modern medical practice. The need for clinical laboratory workers is expected to remain strong. Increased job openings are expected due to the increased need for laboratory testing in an aging population and also due to vacancies created through retirements of current employees. Employment of medical laboratory professionals is projected to grow 11% from 2018-2028 (according to the U.S. Bureau of Labor Statistics). Medical Laboratory Technicians are employed in hospital laboratories, clinics, doctor’s offices, public health agencies and pharmaceutical, industrial, and medical research laboratories.

Program Outcomes
The graduate will:
1. Demonstrate proper use, calibration, adjustment, and operation of laboratory precision instrumentation.
2. Demonstrate standard safety practices in the medical laboratory designed to prevent injury, illness, or loss of life to those working in and/ or around the medical laboratory equipment with particular emphasis on the skills required for collection and testing of numerous body fluids and specimens using Standard Precautions (including the use of personal protective equipment).
3. Correlate pathological conditions of the human body, including cause and symptoms, to the laboratory’s role in diagnosis and treatment.
4. Demonstrate organized and efficient clinical laboratory work skills.
5. Perform a wide variety of testing procedures employed in a medical laboratory and relate the principles of quality assurance and importance of these procedures to patient safety and the diagnosis and treatment of disease processes in the following areas: clinical chemistry, hematology and hemostasis, urinalysis, microbiology, transfusion medicine, and immunology.
6. Be prepared to take the examination administered by the Board of Certification under the direction of the American Society for Clinical Pathology (ASCP). Demonstrate effective interpersonal/professional/self-management skills in interactions with patients, colleagues and other members of the health care team.
7. Demonstrate effective interpersonal/professional/self-management skills in interactions with patients, colleagues and other members of the health care team.

National Certification Exam
Upon completion of the program, the student is eligible to take an examination administered by the Board of Certification under the direction of the American Society for Clinical Pathology (ASCP). Demonstrate effective interpersonal/professional/self-management skills in interactions with patients, colleagues and other members of the health care team.

Textbook and Supply Costs
Students should expect to spend approximately $2,400.00, beyond the cost of tuition and fees, for books, supplies, certification exam, and liability insurance.

Part-time and Full-time Options
Many students attend part-time, which usually increases the program length to 3 years. Part-time students take required general education courses prior to enrolling in the MDLT courses. Once admitted to the MDLT Major, students must take all of the required MDLT courses in sequence as prescribed. Technical courses are offered only during the day. Students completing the required General Education, developmental or EAPP courses and who have not been officially admitted to the MLT program are considered Pre-Medical Laboratory Technician.

Application Process
After completing the Saint Paul College application and admission process, students interested in the Medical Laboratory Technician program must submit a completed Application to the Medical Laboratory Technician Program form to One Stop. This form is available on the Medical Laboratory Technician Web page (saintpaul.edu/MLT) on the second Wednesday of fall semester through the last day in January or later until there are sufficient applicants to fill the open seats. This application window is for the subsequent fall semester start in the MLT Major. Applicants must meet the following criteria to submit the form:
• Documented readiness for, or completion of, the following required General Education Courses: ENGL 1711 English Composition and CHEM 1711 Principles of Chemistry 1
• Achieve a cumulative GPA of 2.8 or better with a minimum grade of “C” in all college level courses.

Admission into the Program
Applying by the priority application deadline (listed on the application) does not guarantee admission to the Medical Laboratory Technician Program. Being admitted to Saint Paul College does not imply admission into the Medical Laboratory Technician Program. After the priority review deadline indicated on the Application to the Medical Laboratory Technician Major, each application is reviewed in the order submitted on the basis of overall academic ability, GPA of college level courses, and assessment scores. Applicants are admitted on a first-qualified, first-served basis according to the order of application submission. Notification of acceptance into the Medical Laboratory Technician Major will be sent by email 6 weeks after the deadline date listed on the Application to the Medical Laboratory Technician Major form. Students admitted into the Medical Laboratory Technician program must attend a mandatory orientation meeting (MLT Seminar) to complete documentation to enter the program.

See back of this guide for Additional Program Requirements, Program Faculty, Program Requirements and Start Dates, Course Sequence & Transfer Opportunities

Minimum Program Entry Requirements
Students entering this program must meet the following minimum program entry requirements:
Reading: Score of 250+ or grade of “C” or better in READ 0722 or READ 0724 or EAPP 0900
Writing: Score of 250+ or grade of “C” or better in ENGL 0922 or EAPP 0900
Quant. Reasoning, Algebra & Stats: Score of 270+ or Adv. Algebra & Functions: Score of 250+ or grade of “C” or better in MATH 0920

Assessment Results and Prerequisites:
Students admitted into Saint Paul College programs may need to complete additional courses based on assessment results and course prerequisite requirements. Certain MATH, READ, and ENGL courses have additional prerequisites.

061A 622A
Medical Laboratory Technician AAS DEGREE (continued)

Additional Program Requirements
- Evidence of immunity to specific diseases prior to clinical experience placement
- Evidence of a cleared criminal background study prior to clinical experience placement

Program Faculty
Michelle Briski
michelle.briski@saintpaul.edu
Nicole Schroeder
nicole.schroeder@saintpaul.edu
Students should consult with the program advisor to develop an appropriate educational plan.

Program Requirements
- Check off when completed
- All courses must be successfully completed with a grade of “C” or better.

**General Education Requirements**
29 Credits

### Total Program Credits
72 Credits

**Recommended Supplemental Courses**
The following optional Learning Lab courses reinforce the basic skills required for attaining proficiency in performing medical laboratory procedures:

- MDLT 1451 Learning Lab 1 – Introductory Skills
- MDLT 1452 Learning Lab 2 – Introductory Skills
- MDLT 1453 Learning Lab 3 – Intermediate Skills
- MDLT 1454 Learning Lab 4 – Intermediate Skills
- MDLT 2455 Learning Lab 5 – Advanced Skills
- MDLT 2456 Learning Lab 6 – Advanced Skills

### Program Start Dates
Fall

### Course Sequence
The following Course Sequence is required for full-time students. MDLT Core Courses can only be taken by students who have been officially accepted and admitted into the Medical Laboratory Technician program and who have attended the Mandatory Medical Lab Technician Seminar.

#### First Semester
- HLTH 1410 Medical Terminology
- MDLT 1400 Introduction to Medical Laboratory Science
- MDLT 1410 Laboratory Techniques
- MDLT 1421 Hematology
- MDLT 1430 Urinalysis/Body Fluids
- MDLT 1441 Clinical Chemistry
- MDLT 1442 Clinical Chemistry
- MDLT 1446 Phlebotomy
- MDLT 1510 Immunology
- MDLT 2410 Immunohematology
- MDLT 2420 Clinical Microbiology
- MDLT 2430 Clinical Practice Orientation
- MDLT 2500 Molecular Diagnostics/Advanced Body Fluid Analysis

**Total Semester Credits**
20 Credits

**Recommended Supplemental Courses First Semester:**
- MDLT 1451 Learning Lab 1 (Optional)
- MDLT 1452 Learning Lab 2 (Optional)

#### Second Semester
- MDLT 1422 Hematology
- MDLT 1442 Clinical Chemistry
- MDLT 1510 Immunology
- MDLT 2455 Learning Lab 5
- MDLT 2456 Learning Lab 6

**Total Semester Credits**
19 Credits

**Recommended Supplemental Courses Second Semester:**
- MDLT 1453 Learning Lab 3 (Optional)
- MDLT 1454 Learning Lab 4 (Optional)

#### Third Semester
- MDLT 1453 Learning Lab 4

**Total Summer Term Credits**
7 Credits

**Fourth Semester (Year 2)**
- MDLT 2410 Immunohematology
- MDLT 2420 Clinical Microbiology
- MDLT 2430 Clinical Practice Orientation
- MDLT 2500 Molecular Diagnostics/Advanced Body Fluid Analysis

**Total Semester Credits**
9 Credits

**Fifth Semester (Year 2)**
- MDLT 2591 Clinical Practice

**Total Semester Credits**
9 Credits

**Sixth Semester**
- MDLT 2593 Comprehensive Examinations

**Total Semester Credits**
1 Credits

**Total Program Credits**
72 Credits

**Transfer Opportunities**
Saint Paul College has a transfer articulation agreement between the following program and post-secondary institutions for the baccalaureate degree programs listed below.

- BA Health Care Administration University of North Dakota
- BA Individualized Studies Concordia University, St. Paul
- BS Medical Laboratory Science Metropolitan State University
- BS Medical Laboratory Science University of North Dakota

**Information is subject to change.**

This program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS):
