Program Overview
The Surgical Technologist is a critical member of the patient care team during surgery. They are responsible for a wide variety of duties, including preparing and maintaining the sterile field and all instruments and supplies used during surgery. Surgical Technologists responsibilities include anticipating the next steps during the surgical procedure and assisting if needed. The Surgical Technology AAS degree is designed to provide students with the knowledge, skills, and professionalism in order to participate safely, and effectively in the perioperative environment.

Career Opportunities
Most Surgical Technologists work in a wide variety of hospital settings; from community hospitals to trauma centers, as well as standalone day surgery outpatient facilities. Employment of Surgical Technologists is projected to grow 15 percent from 2014 to 2024, much faster than the average for all occupations. The immediate need for Surgical technologists is vast, with a multitude of opportunities for properly trained Surgical Technologists.

Program Outcomes
1. To prepare competent entry level Surgical Technologists in the cognitive (knowledge) psycho-motor (skills), and affective (behavior) learning domains.
2. Communicate effectively and professionally with all members of a diverse sterile processing and surgical team.
3. Apply logical and critical thinking skills as it relates to Surgical Technology job duties.
4. Demonstrate safe handling of surgical instrumentation, equipment and supplies used in surgical patient care.
5. Identify surgical instrumentation, supplies, and equipment used in surgical patient care.
6. Use appropriate medical terminology related to the role of Surgical Technology.
7. Apply computer skills required in Surgical Technology.
8. Describe the cycle of sterilization as it relates to the Surgical Technologists role.
9. Demonstrate proficiency in establishing and maintaining the sterile field using aseptic technique.
10. Identify appropriate contraindications and usage of drugs as it relates to the role of the Surgical Technologist.
